

IMPORTANT MESSAGES FROM THE MILL POND SCHOOL

Hello everyone. This is Matthew Oliver, principal of the Mill Pond School. The youngest child in your family has been given a one page informational sheet on how to create your "Parent Portal" on Powerschool, our district's student information system. This one page sheet of paper that your youngest child will bring home today or tomorrow contains your school issued username and temporary password that will allow you to set up your Parent Portal. This internet based account will allow you to track all of your children's grades, attendance, re-play any voice messages sent from the school, and digitally fill out very important forms. These forms include health update information, breakfast and hot lunch programs, computer use permissions, emergency phone number requests, and other important items that we are asking you to provide for the benefit of your children. In the past, all of these forms have been sent home as paper hard copies. We are switching most of this paperwork to a digital format to become more efficient and save paper. Once you log on to your Parent Portal, please click on the FORMS link on the left side of the screen. There are several forms to fill out and can be completed on a smartphone or computer. If you have multiple school aged children, you can apply the form you are filling out to all your children by clicking on the arrow on the right side of the submit button and choosing the option "submit for family." Our technology team is standing by to help. Please reach out to us. techhelp@msad70.org (provide your name and phone number and we will contact you asap)
